User Stories

As a Guest:

- I can see 3 sections (Companies/Contact App/About App)s
- I can click on those three sections to take me to the page
- In companies page I can go back to Home Page
- I can see the categories for company types that filters the companies.
- I can see a list of companies and when I click on it, it takes me to company detail page
- I can see in company detail page (CompanyLogo, CompanyName, CompanyType, Website Link, Images/Videos section, About Company, Location, Jobs)
- In Contact Us I can see a text that explains if I have any suggestions for the website like (add a company or add a feature) and if any company owner that doesn't agree with the website adding their company information can inform the website to remove the company
- In About App I can see the goal and how does the App work
